**Attachments:** SOMSOMSPROJECT.xls; SOMSOMSPROJECT.xls

Not that critical: We already have a multiplier for the Chains and Wholesalers/Distributors which covers 99% of the orders coming thru OMS. So I am not sure why we need an additional column added to ZVMUL.

Thanks for sending, I do see one was not filled in, can you send a statement to this? I believe this was needed to replace an actual value to be populated.

**LP2004-26409867 (Request for Marketing)**

**Add an additional column to the ZVMUL table to be used  
to activate the multiplier for a specific class of trade  
selected.**

I agree with your comments, the first item I do not know what it is for either.

Travis, can you check to see what I have written makes sense. Some I left open, as I did not know what it was for  
(See attached file: SOMSOMSPROJECT.xls)

All:

Feedback from the business is needed for management to determine criticality of the objects. Please provide a brief description (1-2 sentences) on how this change will impact your area. If there is a current workaround, it is important to document the amount of time the business area will save by changing the functionality.

For example, Tracey has an object to create a new report for suspicious orders for the DEA. The business impact might be:

The report is overstating SOMS blocks, therefore, cannot be forwarded to the DEA which can result in \$XX,XXX financial fines for each month the data is not provided.

In the attached file, click on the 3rd tab of the spreadsheet marked "Business Impact". I have color coded the objects for the business area. There are some objects that require input from Marketing and DEA Compliance.

(See attached file: SOMSOMSPROJECT.xls)

Please return the information to me as soon as possible. Diane will be addressing the objects w/ Todd Joyce and Andy Boyer. Additional information will follow shortly after that meeting as far as when the objects will be scheduled for production release(s).

Thank you!

Mary: I will submit the Call Center Objects under separate cover.
